

TELCO Middle East

P.O. Box: 14603, RAK UAE, Tel : 07- 2433100, 07 2438461, Fax : 07-2433101, 07 2438462
Mob.: 050 -7707844, E-mail : sales@tmetekinc.com, Web: www.tmetek.com

COMPANY PROFILE

About Us

When Telco and the former world synthetic moldings of India combined their capabilities under one roof in a newly designed facility in RAK, UAE Synergies were achieved.

Now with several years of manufacturing experience, marketing design of innovative moldings , Telco offers the most comprehensive products line for the Picture frames , Art galleries and dealers , Gifts and Novelty dealers, Glass and Mirror dealers , sign makers and sign writers , interior design, store fixture and painters and painting contractors.

With large width moulding capability extensive programs and wide range of material availability, Telco has the mouldings for your design and needs.

With innovative processed and ideas Telco offers "DESIGN TO DELIVERY."

Quality System

We assure you of our commitment to provide you with a quality product along with continuous improvement. We are committed to manufacturing products that are consistent, durable, cost effective, delivered in time, with quality service and follow up.

Customer Service

Telco prides itself in custom mouldings on a timely basis to our customers. Our turn around time meets or exceeds the requirements of our customers. From RAPID quoting to quick tooling and production, Telco will serve all your needs. We welcome all enquiries regardless of project size or development requirement to complete the job.

Installation

Telco mouldings can be cut with ordinary wood equipment. Frames can be stapled or nailed just like wood

Material Selection Guide

Polystyrene, or PS is a colourless and transparent thermoplastic used for making foam plastic products such as picture frames, polymer building materials. Copolymerization with other rubber polymer materials lets polystyrene be used to make products with different mechanical properties. PS is an amorphous liner polymer with high molecular rigidity and has excellent electrical performance, especially high frequency response. It also has good thermo stability and flow ability in fusion processes. These characteristics make polystyrene easy to shape, especially through injection moulding and is ideal for mass production.

Wide Range of Mouldings

The mouldings selected for this catalog present a cross section of the capabilities and scope of our expertise at Telco. They are arranged in different groupings for easy reference and comparison. Some are not shown to scale, however, the dimensions, where shown, give you a true size of each particular profile. This catalog shows the wide range of our capabilities. Our vast experience enables us to produce the most desired frames for the volume framer.
